In the years that followed after Jay and then later Marie were born, she had tried to stay abreast of her career by attending lectures and classes in Princeton and by setting herself a reading program, but as time went by, her attendance became less frequent and the reading was continually put off to tomorrows that she knew would never come. She found that she read articles on home-building instead of on the mechanism of DNA transcription, identified more readily with images projected by light domestic comedies from the databank than by tutorials on cell differentiation, and

spent more time with the friends who swapped recipes than the ones who debated inheritance statistics. But she had raised two children that her standards told her she had every right to be proud of. Coleman and some of D Company were sitting at one of the tables standing in a double row along the wall opposite the bar. Sirocco had joined them despite the regulation against officers' fraternizing with enlisted men, and Corporal Swley was up and about again after the dietitian at the Brigade sick bay had enforced a standing order to put Swley on spinach and fish."Oh, I dunno---some of the things you said, maybe"..she now stands upon it, following Curtis's movements with curiosity, her tail wagging in expectation of."You shouldn't make up stuff like that about your own mother.."kissing cousin to the Grim Reaper, try reading the news. Then he and the dog will dash for freedom..Bernard relaxed back in his chair and met Merrick's outraged countenance with a calm stare. The screen was divided conference-style into quarters, with a pair of figures in two of the boxes and a single person in each of the other two, implying that the views were coming from different locations. Kath noticed the concerned look that flashed across Bernard's face. "It's all right," she told him. "The channels are quite secure..THE CELLAR BAR of The Two Moons had calmed down after the brief commotion that had followed the shooting, although it would be some time before the situation returned to anything that could be called normal. Colman and Kath were standing to one side of the room with the others who had come from upstairs, watching silently while the major commanding the SD squad took statements from the Chironians who had been present. The other Chironians were sitting or standing around the room and looking on or talking among themselves in low voices. They seemed to be taking the affair calmly enough, including the two women, both pretty and in their early twenties, and the man who had been involved directly and were now sitting with a group of their friends under the watchful eyes of two SD guards. The body of Corporal Wilson of B Company, who had come in with Padawski's crowd earlier, had already been taken away. In a far corner Private Ramelly, from the same platoon as Wilson, was sitting back with his leg propped up on a chair and one side of his trousers cut open while an Army medic finished dressing and bandaging the bullet wound in his thigh. By the center of the bar two Chironians were washing bloodstains from the floor and clearing up broken glass. Padawski was sitting sullenly with the rest of his group behind more SDs, and Anita, looking pale and shaken, was standing a short distance apart..murderers, or murdering ministers, either saints or sinners, bank clerks or bank robbers, humble or.Apparently some of Padawski's friends had the idea that the Chironian women were among the things that could be had for the taking on Chiron, and two of them had persisted in pressing lewd advances upon the two girls at the bar despite their being told repeatedly and in progressively less uncertain terms that the girls weren't interested. The soldiers, who had been drinking heavily, became angry and even more unpleasant, paying no attention to dour warnings from around the room. An argument developed, in the course of which Ramelly grabbed one of the women and handled her roughly. She produced a gun and shot him in the leg. There would probably have been no more to it than that if Wilson hadn't seized the gun and turned it on the Chironians who were about to intervene, at which point another Chironian had shot him dead from the back of the room..But Merrick didn't seem inclined to pursue that side of the matter. "Nevertheless Chironians are getting killed," he said. "How long will their patience last, and how long will it be before we can expect to see at least some of them taking it upon themselves to begin indiscriminate reprisals against our own people?-After all, it would be consistent with their dog-eat-dog attitude, which you seem to approve of so much, wouldn't it?.."I guess so. So what was the rest of it?..that I think about it, the man who was shot in New Orleans?he was Alec Baldwin.."An SD sergeant interrupted from behind Lesley. "They're here sir. Carriers coming through the lock." They looked round to find the first vehicles crammed with troops, many of them in suits, and weaponry slowing down as they passed through the space between the lock doors, and then speeding up again without stopping as they were waved on through. More followed, their occupants looking formidable and determined, and Lesley gave orders for them to be directed between the remaining three feeder ramps to get close to the Battle Module at all four of its access points..Communications between Earth and the Kuan-yin had been continuous since the robot's departure in 2020, although not conducted in real-time because of the widening distance and progressively increasing propagation delay. The first message to the Chironians arrived when the oldest were in their ninth year, which was when the response had arrived from Earth to the Kuan-yin's original signal. Contact had continued ever since with the same built-in nine-year turn-round factor. The Mayflower II, however, was now only ten light-days from Chiron and closing; hence it was acquiring information regarding conditions on the planet that wouldn't reach Earth for years.. There are two guys talking by the coffee dispenser. We'll have to grab them too. Faustzman, you take care of them." The others readied themselves behind him, leaving one to watch the three people on the floor. "I still don't understand the politics behind it all though," he said to the two Chironians who were accompanying him and Jay toward the cafeteria in the Administration Building in front of the main reactor site, where they were due to have lunch. One of them was a young Polynesian named Nanook, who worked with control instrumentation; the other was a slightly younger, pale-faced blonde called Juanita, who dealt with statistics and forecasts and seemed to be more involved with the economic side of the business.
